

The City of Los Angeles 2028 Cultural Program

The 2028 Cultural Program for the Olympic and Paralympic Games (Cultural Program) is committed to presenting a Citywide artistic vision that reflects the diversity, vibrancy, and creativity of the City of Los Angeles. Rooted in neighborhood pride and global ambition, the Host City of Los Angeles Cultural Program will showcase the full spectrum of LA's arts and cultural brilliance by activating all neighborhoods across the City through programs, projects, and events to celebrate the unique stories of the City's artists, organizations, cultures, and communities. The City envisions that every neighborhood will contribute to — and benefit from — this historic cultural moment. **Partner with us to illuminate Los Angeles as the global cultural capital. Select programs highlighted below.**

For a look at DCA's comprehensive plan, find it [here](#):

Mural Legacy Program

Los Angeles is the mural capital of the world — and the 2028 Games are our chance to prove it again. By 2028, the City aims to commission and complete at least 28 new public murals, including one in each Council District, that celebrate the spirit of the Olympic and Paralympic Games, reflect local neighborhood identity, and engage community members in design and storytelling workshops. The initiative additionally aims to restore iconic works and develop a workforce apprenticeship model between master muralists, graffiti artists, and local youth.

Youth Arts Legacy Initiative

Aimed at cultivating and sustaining programs focused on youth, arts education, apprenticeships, and other arts and cultural areas having a long lasting impact for at least 28 years following the 2028 Games. This initiative uses arts and cultural programming as a gateway for young people and communities to connect with the spirit and values of the Olympic and Paralympic Games in a way that feels local, participatory, and relevant. We seek to establish a culture of collaboration and partnerships across cultural organizations and institutions to leverage existing capacities and build even stronger alliances and programs for the youth Los Angeles.

Disability Arts & Paralympic Celebration

A citywide celebration honoring the creativity and innovation of disability arts communities through performances, exhibitions, public art, fashion, culinary arts, panels, and participatory events, timed to coincide with the transition between the Olympic and Paralympic Games. The celebration aims to highlight over 40 programs, projects, and events across all 15 Council Districts, and engage at least 150 artists and cultural workers with disabilities.

Community Arts Festival

The Community Arts Festival platforms LA's own abundant creative life — a region-wide celebration sparking collective pride and civic connection well beyond 2028. The City will help set the vision in partnership with leading creatives and coordinate with philanthropy and community on implementation. Initial funding will support the capacity needed to manage activation grants and ensure alignment with the Department of Cultural Affairs.
